Adnan,

RCN is coming again tomorrow to try and fix the wifi issue. I would really appreciate it if you could be attentive and ready to let them in. As we discussed, I am the late shift at work this week and they are only booking all day appointments. That being said, I asked them to put a note in to send a tech as late as possible and after 6 PM. Hopefully they come when I am able to let them in but if they come earlier please do everything in your power to get them in. This is now a week without wifi which in addition to being frustrating is costing me money for a service I can't use because 2BR cut my wires. I am also eating a ton of cellular data which will result in me being charged for that at the end of the month too. Thank you for your continued efforts during this ridiculous, taxing, and generally brutal ordeal with 2BR.
